FEATURES

Imagine using a single touch to set the perfect lighting in an entire room. The IWD 600S works like any manual dimmer, but it also works wirelessly with the Monster IWC600 master switch and the Monster AVL 300 Controller. Now you can remotely dim or brighten all connected lights for the perfect light level! Instantly set the ideal lighting mood for entertaining and reading, or dim the lighting for watching movies and relaxing.

Monster IlluminEssence light dimmers and switches feature built-in memory that stores lighting presets so you can instantly set many lamps to different levels according to your mood:

- Good Night: all lights off except selected security lights
- Turn on selected lights for security
- Set the perfect mood lighting for entertaining, reading and movies

The Monster and Leviton partnership brings you the ultimate reliability in whole home lighting systems.
